Unit 2 · Session 2 · SLO 1 — Solved Worksheet

Name: DEEP SAND DEEP SAND | **Reg. No:** RA2511026010557

Unit â€“ 2 : Session â€“ 2 : SLO â€“ 1 | Deleting an Element from an Array

■ I. Pseudocode â€” Delete Last Element

• Step 1: SET upper_bound = upper_bound â^' 1 (N = N â^' 1; simply shrink the array)
• Step 2: EXIT

■ II. Pseudocode â€” Delete Element at Position POS

• Step 1: [INITIALIZATION] SET I = POS
• Step 2: Repeat Steps 3 and 4 while I <= N â^' 1
• Step 3: SET A[I] = A[I + 1] (shift next element left over the deleted slot)
• Step 4: SET I = I + 1
• [END OF LOOP]
• Step 5: SET N = N â^' 1
• Step 6: EXIT
• Note: shifting moves left from POS upward; the last element is duplicated then dropped by reducing N.
